

ACCENTURE FACT SHEET Q3 FY17

OVERVIEW

Accenture is a leading global professional services company, providing a broad range of services and solutions in strategy, consulting, digital, technology and operations. We help organizations maximize their performance and achieve their vision. We develop and implement technology solutions to improve our clients' productivity and efficiency—and may run parts of their operations on their behalf. Ultimately, we enable our clients to become high-performance businesses and governments.

TECHNOLOGY LEADERSHIP

As the largest independent technology services provider, we have a privileged position in the ecosystem and are the #1 partner of many key players, including SAP, Oracle, Microsoft, HP and Salesforce.com. The scale and scope of our Global Delivery Network are unmatched, with skilled professionals working from more than 50 delivery centers and at client sites around the world.

SERVICES & SOLUTIONS

Our five businesses – Accenture Strategy, Accenture Consulting, Accenture Digital, Accenture Technology and Accenture Operations – develop and deliver integrated services and solutions for our clients.

- 
Accenture Strategy combines deep business insight with the understanding of how technology will impact industry and business models. We operate at the intersection of business and technology, bringing together our capabilities in business, technology, operations and function strategy to help our clients envision and execute industry-specific strategies that support enterprise-wide transformation.
- 
Accenture Consulting provides industry experts with the insights and management and technology consulting capabilities to help transform the world’s leading companies. Accenture Consulting orchestrates and brings together the best of Accenture from across the organization, and has primary responsibility for building and sustaining long-term client relationships.
- 
Accenture Digital combines our capabilities in digital marketing, analytics and mobility to help clients unleash the power of digital to transform their businesses. We help clients use digital technologies to deliver more meaningful and relevant customer experiences across all channels and customer segments, as well as to create new products and business models and to optimize the efficiency and effectiveness of their internal operations.
- 
Accenture Technology harnesses the power of technology to drive innovation, deliver cutting-edge solutions and increase productivity. It comprises two primary areas: Technology Services, which includes global delivery capabilities as well as application services—spanning systems integration and application outsourcing; and Technology Innovation & Ecosystem, which includes the R&D activities in the Accenture Labs and the management of our alliance relationships across the ecosystem.
- 
Accenture Operations provides business process services, infrastructure consulting, infrastructure outsourcing, security services and cloud services, including the Accenture Cloud Platform. We transform, build and operate IT infrastructure and business processes on behalf of clients to help improve their productivity and performance.
